EDUCATION

SRM Institute of Science and Technology

Bachelor of Technology in Computer Science, Specialization in Cloud Computing

Chennai, Tamil Nadu

Sept. 2021 – Jul. 2025

EXPERIENCE

Apprentice

Bank of America (BA Continuum India Pvt. Ltd.)

Aug. 2025 – Present

Chennai, Tamil Nadu

- Part of the SRE team in the Global Markets line of business of Bank of America.
- Engineering custom internal tooling and automation solutions using tech stack including python, ReactJS, MongoDB, reducing overall manual toll.

Packaged App Developer Intern

Accenture

Feb. 2025 – Jun. 2025

Pune, Maharashtra

- Contributed in the development of a banking application for a banking client from Finland(OP Group).
- Contributed in the backend development process for the application , optimizing API calls and ensuring low latency.
- Collaborated in Agile teams with documentation, testing, and Git workflows.

PROJECTS

Windows AI Desktop Assistant | *Python, Speech Recognition, Pyttsx3, Tkinter*

Jul. 2025 – Aug. 2025

- Developed a fully functional AI-powered personal assistant for Windows that integrates voice commands, automation, and AI intelligence.
- Implemented features to open applications, search the web, control system functions, and provide real-time AI-generated responses using the OpenAI API.
- Built with Python libraries including Speech Recognition, Pyttsx3, and Tkinter for GUI automation.

Full-Stack Banking System | *Java, Spring Boot, React, MySQL, API*

Apr. 2025 – Jun. 2025

- Built a full banking application during my Accenture internship.
- Implemented account management, deposits, withdrawals, transfers, and loans.
- Designed backend validation and scheduling for EMI workflows.
- Developed a React UI to interact with secure RESTful APIs.

KPI Dashboard Builder | *TypeScript, SQL, Chart.js, Node.js* [\[GitHub\]](#)

Jun. 2025 – Jul. 2025

- Created a dynamic dashboard builder for real-time KPI visualization.
- Enabled users to define, filter, and manage custom SQL-based widgets.
- Built interactive, responsive charts using Chart.js and TypeScript.
- Designed a modular interface to support reusable dashboards across teams.

RAG Document ChatBot | *Python, NLP, LangChain, LLMs* [\[Live Demo\]](#)

Jul. 2025 – Aug. 2025

- Developed a RAG chatbot using Streamlit and Hugging Face Falcon 7B Instruct.
- Supported PDF, TXT, and image inputs with OCR.
- Used local Sentence Transformers for semantic search.
- Added chat memory and source citations.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6), NoSQL

Frameworks: FastAPI, React, Flask, LangChain, TensorFlow/Keras, Spring Boot

Tools: Git, Maven, Docker, Postman, CI/CD, Streamlit, Heroku/Vercel

Databases: MongoDB,MySQL, PostgreSQL, H2
